Due to a number of favourable factors, such as the country's location, a growing number of hospitals, clinics and airports near the medical facilities, Poland is rising to be one of Europe's leaders in medical tourism. The high quality of Polish healthcare caused, that patients from many countries are eager to benefit from the services of our hospitals, clinics, sanatoria and spas. Their wide offerings include among others: cardiac rehabilitation, rehabilitation of the locomotor system, treatment of obesity, cleansing the body of toxins, or treatment of rheumatic diseases.

Last year more than 300 thousand citizens from around the world visited Poland for medical purposes. They underwent procedures in the fields of: dentistry, neurosurgery, ophthalmology, plastic surgery and orthopedics. Infertility treatment and surgical treatment of obesity are also very popular among foreign patients.
